## Overdraft Transfer Enrollment Form

Overdraft Transfer is an overdraft protection plan that helps you:

- Prevent overdraft fees or fees from payees for returned checks or late payments
- Avoid the embarrassment of a declined transaction due to insufficient funds in your checking account

When you enroll in Overdraft Transfer, you authorize a link between your checking account and your Hyde Park Bank savings or money market account. In the event your checking account is overdrawn, we'll transfer funds from your linked account.

Transfers are made in \$100 increments. For each transfer, a \$12 fee is deducted from your checking account.\*

There is no enrollment fee or annual fee.

You must be an authorized signer on both accounts in order to enroll. Please print in ink.
